The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Ding (US 6,104,817).

Regarding claims 1, 11, Ding discloses an electrodynamic transducer system comprising: an electrodynamic transducer comprising a membrane and at least one voice-coil attached to the membrane (speaker includes a diaphragm and a first voice coil mechanically coupled with the diaphragm; col. 15, lines 16-17);

motion sensing means (motional measurement means coupled with diaphragm and having an output; col. 15, lines 17-19);

current sensing means (current measurement means; col. 15, lines 29-31);

control means using the motion signals to control the lower-frequency components and the current signal to control the higher-frequency components (first feedback means coupled with the motional measurement means is assigned the low-pass filtered, and second feedback means coupled with current measurement means is assigned the high-pass filtered; col. 8, lines 13-15; col. 15, lines 24-33)'

Application/Control Number: 09/844,870

Art Unit: 2643

amplifying means (an amplifier receives input from the first and second feedback means and having an output adapted for electrical coupling with a speaker voice coil; col. 15, lines 25-26, 32-33, 65-67).

Regarding claims 2-3, 6, Ding provides for a low pass filter and a high pass filter (col. 16, lines 19-21).

Regarding claims 4-5, 7-8, note Figure 16b.

Regarding claims 9-10, amplifier 43 provides a current I through voice coil 41 (col. 5, lines 48-61).

Conclusion

- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka et al., Gasner, Meerkoetter et al. show other relevant speaker systems.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stella L. Woo whose telephone number is (703) 305-4395. The examiner can normally be reached on Monday-Tuesday, Thursday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on (703) 305-4708. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
